

2009 Civil Engineering P.E. Review Course

Dates For PE Review Course

Wednesday, September 2nd
Wednesday, September 9th
Wednesday, September 16th
Wednesday, September 23rd
Wednesday, September 30th

Hosted by the University of South Florida Student Chapter of American Society of Civil Engineers

The P.E. Review course has been altered this year including the addition of a **CONSTRUCTION REVIEW**. The *new* structured format of the review closely follows the setup of the NCEES exam. The first three weeks of the course (Sept 2-16) will contain six programs based on the morning breadth exam. The following weeks will be a more intense review that is segregated into YOUR CHOSEN DISCIPLINE. The depth review sessions cover material that will more likely be found on the afternoon exam. The updated format allows participants to focus specifically on the subjects they need the exam. Please understand that this is a review course and **NOT a teaching course**.

Early Registration Fee Until August 3 rd @ 5:00pm	\$250.00
Registration Fee After August 3 rd @ 5:00pm	\$275.00
Special Sponsorship Fee	\$225.00

- Food and Drinks will be provided during all review sessions.
- Courses will be taught by Professional Engineers who specialize in their discipline. Instructors will either be faculty members from the University of South Florida or engineers from local offices.
- Each participant will receive a copy of their instructor's notes and any example problems used during the sessions.

For more information, please feel free to contact the **USF ASCE Student Chapter** by e-mail Shawn Brown at swbrown2@mail.usf.edu, or Jonathan Stewart at jestewar@mail.usf.edu

P.E. Review Course Layout

Breadth Review Sessions: September 2nd, 9th, & 16th

- Environmental
- Water Resources
- Structures
- Geotechnical
- Transportation
- Construction

Depth Review Sessions: September 23rd & 30th

- **Environmental / Water Resources Tract:** Water/Wastewater Treatment, Biology, Solid/Hazardous Waste, Groundwater, Hydrology & Hydraulics
- **Geotechnical / Structural Tract:** Loading, Failure Analysis, MoM, Member Design, Design Criteria, Soils, Foundations, Earth Structures & Seismic Engineering
- **Transportation / Construction Tract:** Traffic Analysis, Transportation Planning, Construction, Geometric Design, Hydraulics & Hydrology

USF ASCE Civil PE Exam Review Course Guideline

PLEASE NOTE: PE Exam Review Course will undergo updates during preparation for the course

Wednesday, September 2nd, 2009

- 5:00pm-6:30pm Breadth Session – Construction
6:30pm-7:00pm Dinner Break
7:00pm-8:30pm Breadth Session - Transportation

Wednesday, September 9th, 2009

- 5:00pm-6:30pm Breadth Session - Environmental
6:30pm-7:00pm Dinner Break
7:00pm-8:30pm Breadth Session – Water Resources

Wednesday, September 16th, 2009

- 5:00pm-6:30pm Breadth Session – Structures
6:30pm-7:00pm Dinner Break
7:00pm-8:30pm Breadth Session - Geotechnical

Wednesday, September 23rd, 2009

- 5:00pm-6:30pm Structures Depth Session
Transportation Depth Session
Environmental Depth Session
6:30pm-7:00pm Dinner Break
7:00pm-8:30pm Structures Depth Session

Transportation Depth Session

Environmental Depth Session

Wednesday, September 30th, 2009

4:45pm-6:30pm Geotechnical Depth Session

Water Resources Depth Session

Construction Depth Session

6:30pm-7:15pm Dinner Break

7:15pm-9:30pm Geotechnical Depth Session

Water Resources Depth Session

Construction Depth Session
